LOTUS 260413: 1252 genera with ≥ 50 unique molecules — taxonomy and NPClassifier pathway composition

kingdom (inner ring)
- Archaeplastida
- Fungi
- Metazoa
- Other eukaryotes
- Bacteria

pathway rings, inside → out
(opacity = share of genus molecules)
- Terpenoids
- Shikimates and Phenylpropanoids
- Alkaloids
- Polyketides
- Amino acids and Peptides
- Fatty acids
- Carbohydrates

outer grey bars: unique molecules per genus (log scale)
